

README FIRST

Thank you for choosing the KHR series and HeartToHeart4. The new HeartToHeart4 has been newly designed to be easier to handle than HeartToHeart3, multifunctional, and scalable.

This beta version is based on version 2.1.

!!!! THIS IS BETA VERSION !!!!

[Conditions of use]

OS:	Windows XP (Service Pack 2 or above) / Windows Vista / Windows7 32bit / 64bit each
Processor (CPU):	Pentium 4 2GHz or above or equivalent recommended.
Hard Disk:	32 MByte or larger (not including data file)
Memory:	256 MByte or larger
USB:	USB2.0 capable port(s), Serial USB Adaptor or Serial USB Adapter HS is recommended.
Software:	Microsoft.NET Framework 2.0 is necessary

[How to use]

1. Uninstall older version. If you need to use older version after using this beta version, remove "My Document/HeartToHeart4/Toolbox" folder. New dll files are incompatible with older version.
2. This beta version does not have an installer. Open folder and double click "HeartToHeart4.exe" to run. This software cannot run more than one.
3. Project files must be converted to new version. When load the old project file, the conversion wizard will start.
4. Although conversion wizard rewrite the project file to fit the new version, motions are still unchanged. All motion data file must be loaded and build.
5. The destination address to jump which is saved in the MotionJump control must be converted when using the older version's motion file. If the motion uses the MotionJump control (like HLO008_Clapping), open MotionJump dialog and re-select same motion name and press OK button. Then the destination address is re-defined. After that, do build to write corrected motion data to RCB-4.
6. Converted motions and projects are incompatible with the older version.
7. New project data file has a new extension ".h4p".

[Known problems]

1. Localizing is not completed. Some messages and hints (balloon help) are still unchanged (japanese).
2. Some paragraph and screenshots in the manual are also still unchanged (japanese).

[Licensing]

1. The installation and use of HeatToHeart4 (hereinafter referred to as "this software") is permitted only if you agree to the current licensing terms.
2. This software consists of executable format files, dynamic link library, setting files and sample data files. The entirety of the aforementioned files, as well as libraries that are added in the future, is referred to as "this software."
3. Copyrights, all legal rights, copyrights for the logo mark, designs of some icons, and all files attached to this

software belong to Kondo Kagaku Co., LTD.

4. This software is distributed as freeware provided that Kondo products are used. This software may be reproduced only for use with Kondo products.
5. This manual and this software may not be sold, leased, lent or disclosed to the public regardless of whether or not compensation is received. Reverse engineering such as reverse assembly, reverse compiling, localizing and alteration is not allowed.
6. Kondo Kagaku Co. Ltd. assumes no responsibility whatsoever for any damage resulting from the use of this manual or the installation or use of this software.
7. All company names and product names used in this manual are trademarks or registered trademarks. All illustrations and logo marks used in this manual may not be used without prior written consent.
8. Use and transportation of this software out of Japan may require registration and permission in accordance to related laws.
9. Please be informed that the contents of this manual and this software are subject to change without notice for improvement or other reasons.

[Support]

There is no support of this beta version.
